

MEDICATION BINS

Designed for Long-Term Care Facilities & Retirement Homes

NEW FOR 2024,
our patented, medication
bins have an improved lid
design.

OUR SLIDING LID,
eliminates the hinged lid
that was prone to breaking
and cracking.

DESIGNED IN
CANADA, specifically
for Canadian strip
medications.

INTERCHANGEABLE
our bin is the exact
same size as a leading
competitors bin.

NO MORE
BROKEN
LIDS

We have eliminated the hinged lid that our competitor's bin uses, a weak point which often breaks due to extended use or over-filling the bin with medication strips. Their lid tends to "pop open" then it gets jammed and breaks off when the cart drawer is closed.

A broken lid means that valuable resident information attached to the bin is lost and the lids usually fall and tend to accumulate behind the bottom drawer. Accumulated broken lids often prevent the bottom drawer from closing preventing the cart from locking, this causes an expensive service call and an unlocked medcart until the tech arrives!

FEATURES & SPECIFICATIONS

- Patented design allows the clear lid of our medication bins to slide back and forth for easy access...**no more broken lids.**
- Larger clear surface area on our lid allows for more resident information.
- The Canada MedCart medication bin was designed in Canada, specifically for Canadian strip medication.
- Our medication bin measures 9-1/8" x 3-1/2" x 3-1/4" which is the same size as the Stor-Flex bin. Our bin is totally interchangeable with theirs and It fits the same number of bins in a drawer.
